

POKÉDEX 3D

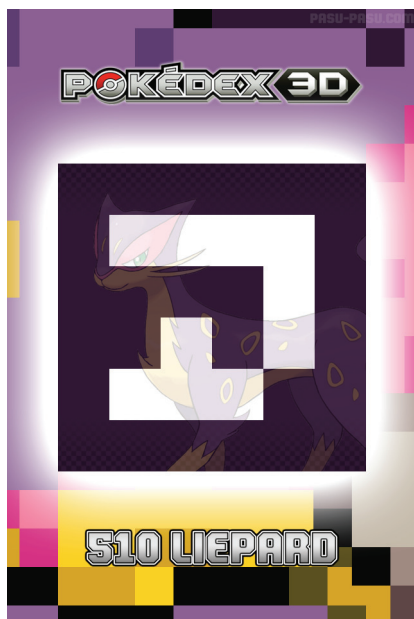

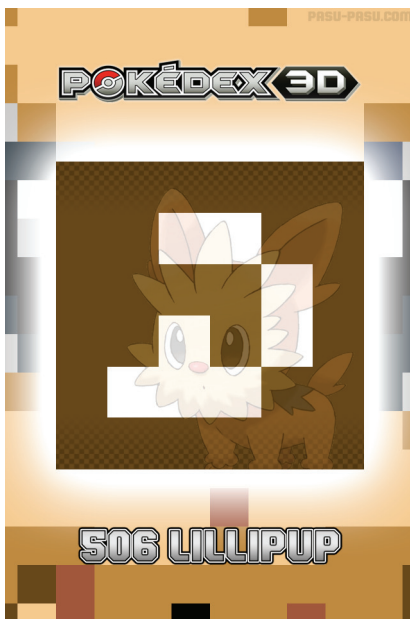

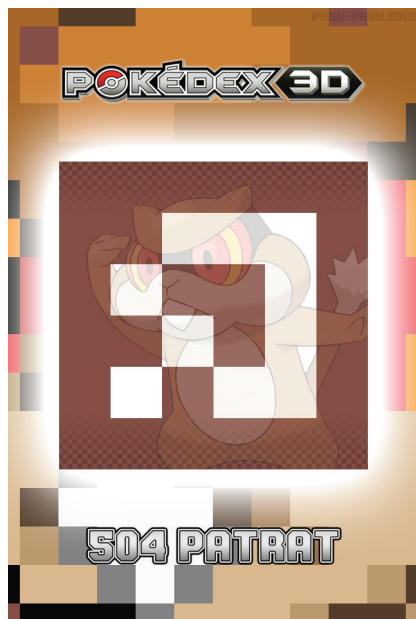

Pokedex 3D AR Markers • Print sheets by Pascal du Bois • www.pasu-pasu.com

v1.0

These pages are A4 sized, the default paper format. If you wish to print them, do so on 100%, even if the printer says it won't fit. This will probably lose a bit of the guidelines, but the cards themselves will be fine. If you do not wish to cut them out: these pages can also be put in a binder as the pages have page- and Unova/International Pokédex numbers for easy reference to your favourite Pokémon. Enjoy!
